Acknowledgement of Personal Use of
Utah Local Government Trust Technology and Devices
Updated 5/7/2021

Information technology resources (Technology Resources) are provided to Trust employees to assist in the efficient day to day operations of the Trust. Employees shall use information technology resources in compliance with this policy.

Employee and Management Conduct

1. By virtue of using the Technology Resources employees have no expectation of privacy relating to such use and Trust employees are consenting to having their use of Technology Resources monitored. **The Trust has software and systems in place that can and does monitor and record all Internet usage.** Employees should be aware that the Trust's security systems are capable of recording (for each and every user) each World Wide Web site visit, each chat, newsgroup or email message, and each file transfer into and out of our internal networks, and the Trust reserves the right to do so at any time.

The Trust's management will review Internet resources and analyze usage patterns, and may choose to publicize this data to assure that company Internet resources are devoted to maintaining the highest levels of productivity.

The Trust has decided as a business requirement that all staff use iOS, iPad OS and macOS devices to accomplish their daily tasks. Most of the tools made available to employees on these devices should be used on a daily basis and to be most effective, must use the same Apple ID and must sync all Apple devices of the employee, without exception. The Trust uses messages, mail, reminders, and notes to communicate and it is imperative that all employees operate on the same standard to promote effective communication and record keeping. The undersigned employee acknowledges that when they were issued technology devices by the Trust, they were not required to use their personal Apple ID for their work-issued devices, but instead chose to do so. If the employee chooses to continue to use their personal Apple ID on their work devices for the employee's convenience, they may do so. If they choose not to use their personal Apple ID, the employee will need to obtain separate personal devices such as a mobile phone for their personal needs. If the employee chooses not to use the employee's personal Apple ID, (1) if the employee is salaried, the employee will be required to carry their Apple phone with them at all reasonable times, and (2) if the employee is not a salaried employee, the employee will leave their Apple devices at the office each day. Personal Apple devices will not be permitted to sync to any Trust related data, including email so that the Trust can maintain adequate security measures. The Trust supports each employee's decision to use their personal Apple ID on Trust Technology Resources, or to use a work-specific Apple ID based on the parameters outlined above.

If the employee chooses to continue to use his or her personal Apple ID on Trust devices, the employee acknowledges that certain personal information, web searches, websites and photos searched on personal devices may inadvertently be transferred to Trust Technology Resources. If any photos, web searches, website visits or photos that would violate Trust policies end up on Trust Technology Resources, whether intentional or not, such occurrence will be treated as if the employee searched, accessed websites, or downloaded photos, etc. on the Trust's Technology Resource device itself and may take all reasonable disciplinary action the Trust deems appropriate.

Trust management may:

- (a) View, authorize access to, and disclose the contents of electronic files or communications, for any purpose, including as required for legal, audit, or legitimate Trust operational or management purposes;
- (b) Monitor the network or email system including the content of electronic messages, including stored files, documents, or communications as they are displayed in real-time by employees, or otherwise.
- (c) Review the Internet addresses of any sites visited by an employee, the length of time each site is viewed, and any images or documents that are viewed, printed or downloaded are recorded, and can see whether such sites were visited during work hours.
- (d) access information on personal devices that are linked to the employee's personal apple ID.

2. An employee may engage in incidental and occasional personal use of Technology Resources on personal time (such as watching movies or other videos and internet browsing and shopping), provided that such use does not:

- (a) Disrupt or distract the conduct of Trust business due to volume, timing, or frequency;
- (b) Involve solicitation of any products or services not related to the Trust's Business during business hours.
- (c) Involve actions, which are intended to harm or otherwise disadvantage the Trust;
- (d) Involve illegal and/or activities prohibited by this rule; or.
- (e) violate any of the policies contained herein.

3. An employee shall:

(a) comply with the Government Records Access and Management Act, as found in Section 63G-2-101 et seq., Utah Code, when transmitting information with Trust provided Technology Resources.

(b) Report to agency management any computer security breaches, or the receipt of unauthorized or unintended information.

(c) Only send emails and other correspondence that are professional and respectful in tone. Such communications should not be used for debate or argument or to say something that the employee is unwilling to communicate verbally. Employees are reminded that email communications may be stored electronically on the Trust's computer systems and accessed by others within the Trust, as allowed by Trust policy.

4. While using Technology Resources, an employee, whether during working hours or on personal time, may not:

(a) Access private, protected or controlled records regardless of the electronic form without written management authorization;

(b) Divulge or make known his/her own password(s) to another person, other than to authorized personnel;

(c) Distribute offensive, disparaging or harassing statements including those that might incite violence or that are based on race, national origin, sex, sexual orientation, age, disability or political or religious beliefs;

(d) Distribute information that describes or promotes the illegal use of weapons or devices including those associated with terrorist activities;

(e) View, attempt to view, transmit, retrieve, save, print or solicit sexually-oriented messages or images;

(f) Use Technology Resources to violate any local, state, or federal law;

(g) Use Technology Resources for political functions, including Lobbying;

(h) Represent oneself as someone else including either a fictional or real person;

(i) Knowingly or recklessly spread computer viruses, including acting in a way that effectively opens file types known to spread computer viruses particularly from unknown sources or from sources from which the file would not be reasonably expected to be connected with. Please report any actual or suspected virus contamination immediately to your immediate supervisor or the IT Manager;

(j) Create and distribute or redistribute "junk" electronic communications, such as chain letters, advertisements, or unauthorized solicitations.

(k) Download or use any pirated software or digital media, or install any other programs on Trust equipment because of the potential for virus contamination, copyright infringement, and so forth, without the prior consent of the IT Manager.

(l) Disable, defeat or circumvent any Trust security facility, including firewalls, proxies, Internet address screening programs and other security programs or systems.

(m) engage in online gambling or any similar kinds of activities.

If Trust management determines that an employee has violated this policy, they may impose disciplinary actions, up to and including termination, and may restrict the employee's use of Information Technology.

Because the Trust's Technology Resources, as defined above, are owned by the Trust, employees have no right of privacy to any information, whether of a personal or business nature, stored in the Trust's Technology Resources, including information that is stored in active, archived, or deleted files. Further, the Trust reserves the right at any time to review any information contained or stored in the Technology Resources that the Trust uses now or may use in the future, whether stored in active, deleted, or archived files.
